---

*Software developer with over five years of experience in web and mobile development. I have collaborated with national and international companies, delivering high-quality digital products using Angular, React, and Node.js, among others. I stand out for my adaptability, technical leadership, and commitment to professional growth and constant innovation.*

*I like being able to create systems that impact the daily lives of many people and leave a mark on the world.*

## PROFESSIONAL EXPERIENCE

---

### TeamQ

Erfurt, Germany

Senior Frontend Developer

March 2024 – September 2025

- I developed high-performance web systems using Angular 17 and Tailwind, improving the user experience and the efficiency of internal processes for different entities.
- I led code optimization and best practices initiatives within the Frontend team, driving the adoption of new technologies and agile methodologies.
- Create unit tests for different projects to ensure project quality.

### Bitekso SA

Guayaquil, Ecuador

FullStack Developer

March 2022 – 2024

- I led a group of developers and several projects for public entities.
- Facilitated communication between technical teams and clients for successful delivery of solutions.
- I implemented web systems using Angular, Node.js, React, Express, SQL Server and PostgreSQL.
- I improved data integration and user experience on public portals, optimizing the efficiency of database queries.

### Freelance

Guayaquil, Ecuador

FullStack Web and Mobile Developer

December 2019 – January 2022

- I created web systems and native mobile applications for clients across various industries, using PHP, JQuery, JavaScript, MySQL, MariaDB, Java, and Kotlin.
- I developed customized solutions that improved clients' business processes, delivering projects on time and in the right way.

## EDUCATION

---
